

HAMMAN AG RESEARCH

Pesticide Applicator Training & Recertification

Present Training for **ALBERTA FARMER PESTICIDE APPLICATOR CERTIFICATE or Recertification**

Lethbridge, AB at the Hamman AG Research Farm
Tuesday, February 25th2020

ALBERTA FARMER PESTICIDE APPLICATOR CERTIFICATE or RECERTIFICATION (No Exam!)

The Certificate Course is a 1 day course. Study manuals are provided in addition to instruction with lectures and Power Point presentation on the 7 modules plus the grain storage module. A proctored 2 hour 70 question exam is provided at about 3:00 pm. The pest management regulatory rules are getting more stringent and are requiring that a number of pesticides can only be purchased and used by certified applicators. Companies, Manufacturers and grower organizations are requiring certification in order to obtain certain pesticides and grow commodities under their contracts. A Farmer Applicator certificate will continue to be NECESSARY as more Wholesalers and Retailers require certification. We will also provide training for the Grain bin Storage with Phostoxin in the late afternoon of this day. If you already have your certificate and it is about to EXPIRE after 5 years then this course will provide you recertification credentials for another 5 years. **Requires only your presence! NO EXAM REQUIREMENT ! ALL CERTIFICATES ISSUED BEFORE 2015 HAVE NOW EXPIRED.**

The Certificate will be sent to you by Alberta Agriculture after successfully passing a closed book exam at end of day. Generally all applicants pass the exam. Alberta Environment requires that the materials taught in the course be taught by an authorized trainer. Dr. Bill Hamman is a certified trainer who has been teaching pesticide application legislation, applicator and environmental safety for over 25 years..

INSTRUCTOR:

Dr. Bill Hamman, President Hamman AG Research and Senior Agri-Coach® with AgriTrend Agrology

Dr. Bill has instructed the pest application for Provincial certifications for over 25 years and is considered a top lecturer on the subject material. He is President of Hamman AG Research, a company that is well respected in the Agriculture Research Business. He instructs the Agriculture, Landscape, Seed Treating and Industrial Alberta Custom Applicator certificates with a very successful pass rate for students taking the exam. The instruction is energetic and fact filled and you will enjoy this course.
