Farming Smarter: Plot Shots – Soil Sampling Students

Dec. 10, 2019

Video <https://www.youtube.com/watch?v=xsILAVOqfSg>

Gordon Logie brought his second year Lethbridge College students to Farming Smarter for a little hands on learning Sept. 17, 2019.

Farming Smarter Research Manager Mike Gretzinger had the students take soil samples from our fields teaching them the correct way to gather the best sample possible.

At Farming Smarter we appreciate the opportunity to share knowledge with Lethbridge College students.
